stone company in Sultante of Oman

[Home](#)[Products](#)[About](#)[Contact](#)[Gall](#)

## WELCOME

We offer standard products with the flexibility to produce customised products as per our customer's requirements. Our products varies from internal and external wall cladding, flooring, stair coverings and high quality pavement in different sizes & colours.

omani black stone

omani green stone

omani brown stone

## Key Points

All our products are: natural, durable, chemical resistant such as sulphates which are found in soil, sustainable for generations like the pyramids in Egypt, 100% eco friendly and will remain for generations without changing the colour.

Our natural slate stone contain about 55% silica which give our products high strength, a shining surface, hardness, make it chemical resistant and provides a natural alkaline effect. You can use it closely everywhere without worries about changing the colour.

## MORE INFORMATION

Our Stones are tested chemically and physically. All test reports showed that our stones have excellent properties which qualifies them to be used in construction and decoration purposes. The production of decor stone is our core business.

*The modern Omani Art of wall cladding in rough finishing.*

*Black Stone Wall cladding with rough surface structure.*

*The Green Stone floor tiles with semi rough surface finishing.*

## **NATIONAL NATURAL DECOR STONE COMPANY LLC**

We offer standard products with the flexibility to produce customised products as per our customer's requirements.

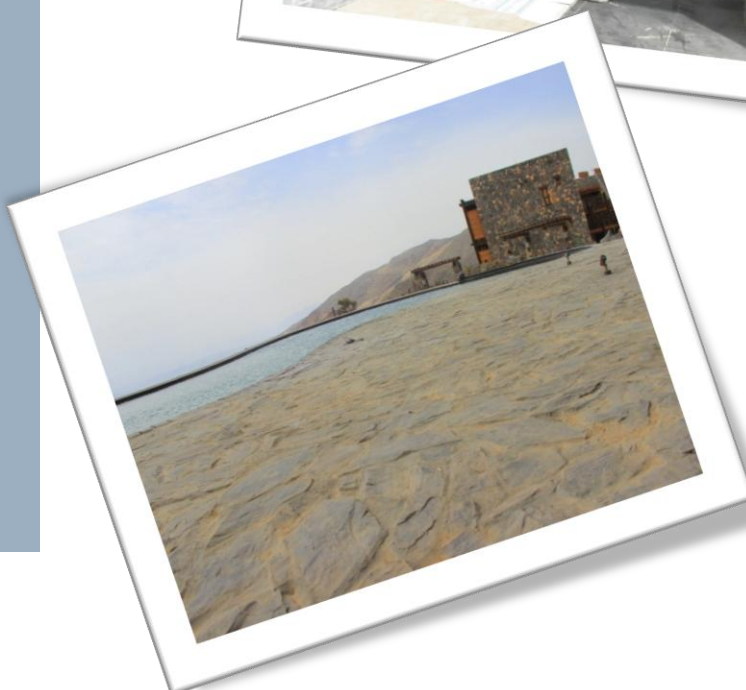

Our product varies from internal and external wall cladding, floor coverings, stair coverings and high quality pavement in different sizes & colours.

Furthermore we produce a wide range of basins, shower trays and bowls.

But also countertops cover plates and flower baskets are part of our products.

Our Products are 100 % National and Natural manufactured by raw material what we gain out of our own Quarry in Wadi Bani Awf.

Our goal is to impress you as our valued customer and to match your expectations. We are chiselling your wishes into stone so they will stay with you forever.

## RUSTAQ SLATE STONE

Slate is durable, sturdy, easy to clean and is used for millennia for natural building and design.

Innovative formats, probability highly economical, easy processing technique and an aesthetic overall appearance make slate an ideal material contemporary architecture.

On the facade, the interior and the exterior design of the building stone create a special atmosphere. Alive structured, full of character and classy.

## **OUR VISION**

Our Vision is to offer high quality products out of natural stone which is eco-friendly, sustain for decades and even generations. Our elegant products will provide your home, your bed- and bathrooms, your staircase, your garden and even your working place with the unique touch from the nature. Our goal is to meet your expectations and to provide you with products that matches your requirements.

## **FACTS**

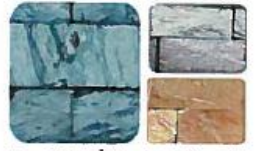

Our material is chemically and physically tested and has proven that these specific natural stones are more reliable than marble and concrete products. The strength capacity of our natural stone is 250 % higher than concrete products. This assures a much longer shelf life with less wear and a strong natural colour fastness. All our products are; natural, durable, chemical resistant such as sulphates which are found in soil, sustainable for generations like the pyramids in Egypt, eco-friendly and will remain for generations. Our stones contain about 55% silica which gives our decor stones high strength, shining, hardness, make it chemical resistant and provides a natural alkaline effect.

## **PRODUCTION**

Flexibility in terms of manufacturing, shapes, dimensions and finishing is one of our strongest assets. Thick, thin, chiselled, honed, cleaved, polished, shining, matt or glossy, your aim is our task. In our factory we ensure that the demands of our valued customers are met. Qualified people with long time experience, high quality machinery and the understanding of the raw material guaranties high quality products in a wide range ether standard or customised.

## **ENVIRONMENT**

Environmental protection is not just a term we practice it. Vo reduction of the raw material through to completion, we place great value on a thoughtful use of natural recourses. Stone processing is a highly water-intensive measure in most cases. Therefore, we have in our production a sophisticated water treatment system implemented which allows us a constant opponent use. Even its for us a cost factor, we deliver our products in reusable wood boxes which will be picked up from us free of charge from your side after your job is completed.

## WALL CLADDING

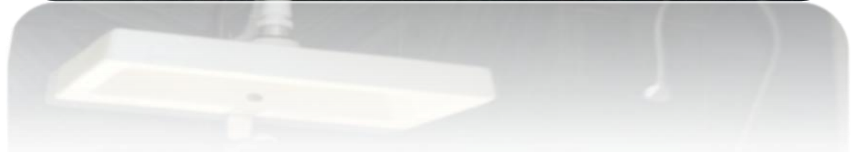

Our wall cladding stones provide a fantastic atmosphere and are based on their shape, colour and finishing a wonderful contrast for the in- and outside. No matter if free size, straight shaped, wild mixed, as tiles, strips or bordure, with rough or polished surface, our products are setting accents to your property and will remain for the lifetime of generations.
